

# #MarchAdventureChallenge

An outdoor awareness campaign hosted by Apothecary Muse on Instagram, 2018

### What are we doing?

Using people power, we are working together to share outdoor experiences with others, improve photography skills, enhance environmental awareness and maximize momentum along the way.

### Kinds of images

Use the suggestions below to take photos when you are outside and share on Instagram. Try to tell a story with your image, not just words. Please refrain from including branding or sales information in your challenge photos to protect the integrity of the hashtag. Bonus: avoid post-editing, cropping or filtering.

### Are there rules?

How about a guide instead?

### Guide:

Your images can be local, sports, nature or travel related, taken at ANY point by YOU in March 2018. Do not let the challenge interfere with experiencing the moment. Put the camera down every once in awhile.

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
				Horizon 1 	Miniature or Micro Landscape 2	Lifecycle: Plant, Trees, and/or Fungi 3
Reference scale (temp. installation) 4	Diversity in Outdoors (people) 5	Distant Landscape or Lookout 6	Favorite Tool for Outdoors 7	Climate Extremes 8	Natural Frame 9 	Action Shot (still or Boomerang) 10
